## Work Experience & Projects

○ 2023 - 2024

### Web projects

#### HeavenNest, an Airbnb Like

- Developed using **Ruby on Rails**, **PostgreSQL**, **Active Record** and **Stimulus**.
- Used **Active Storage** for efficient image uploads and retrievals.
- Implemented **Devise** for secure user authentication and management.
- Used **Stimulus** for enhanced frontend interactions and user experience.
- Built dynamic, responsive interfaces with **Bootstrap** and **SCSS**.
- Ensured robust data validation and error handling throughout the application.
- Version Control using **GitHub** -> Repository, Branching, Pull Requests.

#### PopCorn, a Movie List Manager

- Developed using **Ruby on Rails**, **Bootstrap** and **PostgreSQL**
- Designed relational schemas with **Active Record**.
- Used **Active Storage** for efficient image uploads and retrievals.
- Implemented **Devise** for secure user management (User Authentication)
- Built responsive, user-friendly interfaces with **Bootstrap** and **Simple Form**.
- Integrated **TMDB API** for dynamic movie data retrieval.
- Version Control using **GitHub** -> Repository, Branching, Pull Requests.

○ 2020 - 2023
